

# FLP-25-T1-V/3+1

ORDER NUMBER: A05304

pluggable module, visual fault signalling, module locking

- combination of three-pole high performance lightning current arrester and encapsulated efficiency spark gap, connected in the 3+1 mode, leakage current-free
- installation at the boundary of zones LPZ 0 and LPZ 1 or higher, mainly to main distribution boards
- for protection against impact of direct or indirect lightning strikes in wide range of applications – houses, office and industrial buildings
- coordination with SPD type 2 (SLP-275 V) even without surge separating inductors

CE ezú

## Technical parameters

| Parameter name   | Parameter value                     |
|--|-------------------------------------|
| Type of SPD  | T1                                  |
| Mounting   | DIN rail 35 mm                      |
| Nominal voltage  | U <sub>n</sub>                      |
| Maximum operating voltage L-N                                  | U <sub>c</sub>                      |
| Maximum operating voltage N-PE                                 | U <sub>c</sub>                      |
| Nominal load current for "V" connection                        | I <sub>L</sub>                      |
| Type of network  | TT                                  |
| Maximum overcurrent protection                                 | 250 A gL/gG                         |
| Maximum overcurrent protection for "V" connection              | 125 A gL/gG                         |
| Short-circuit current rating                                   | I <sub>SCCR</sub>                   |
| Total discharge current (10/350 µs)                            | I <sub>Total(10/350)</sub>          |
| Lightning impulse current (10/350 µs) L-N                      | I <sub>imp</sub>                    |
| Lightning impulse current (10/350 µs) N-PE                     | I <sub>imp</sub>                    |
| Voltage protection level mode L-N                              | U <sub>p</sub>                      |
| Voltage protection level mode L-PE                             | U <sub>p</sub>                      |
| Voltage protection level mode N-PE                             | U <sub>p</sub>                      |
| Ability to independently switch off the following current N-PE | I <sub>fi</sub>                     |
| Response time L-N  | t <sub>a</sub>                      |
| Response time N-PE   | t <sub>a</sub>                      |
| TOV 5 s L-N  | 335 V                               |
| TOV characteristic (TOV 5 s)                                   | withstand                           |
| TOV 200 ms N-PE  | 1 200 V                             |
| TOV characteristic (TOV 200 ms)                                | withstand                           |
| Cross-section of connected conductors solid (min)              | 2.50 mm <sup>2</sup>                |
| Cross-section of connected conductors solid (max)              | 50.00 mm <sup>2</sup>               |
| Cross-section of connected conductors stranded (min)           | 2.50 mm <sup>2</sup>                |
| Cross-section of connected conductors stranded (max)           | 35.00 mm <sup>2</sup>               |
| Fault indication L-N   | red indication field                |
| Fault indication N-PE  | no                                  |
| Degree of protection   | IP 20                               |
| Range of ambient temperatures (min/max)                        | -40 / 80 °C                         |
| Humidity   | 5 - 95 %                            |
| According to standard  | EN 61643-11:2012, IEC 61643-11:2011 |
| ETIM Class   | EC000381                            |
| Plug module  | FLP-25-T1-V/0 FLP-A100N V/0         |
| Customs tariff number  | 85363090                            |
| EAN  | 8595090553045                       |
