

SLP-275 V/3+1

ORDER NUMBER: A01946

pluggable module, visual fault signalling, module locking

- combination of varistor surge arrester and encapsulated spark gap, connected in the 3+1 mode
- installation to LV installations, especially to sub-distribution boards in TT and also TN-S systems
- for protection of the installations and equipments against impact of induced overvoltages during a lightning strike or switching overvoltages
