SSY11

Name	SSY11
Number of poles	1P
Cylindrical fuse (mm)	10x38
Mechanical strength	100,000 operations (minimum value)
Electric resistance	100,000 operations (minimum value)
Work temperature	-5 / + 50C
Cross section of connected cable	0,75-2,5 / 0,75-4 mm
Standard	TS EN 60947-4-1
Advantages of the fuse holder:	Provide visible space for line work.
	Reliable line and device protection at minimal cost.
	Fuse link indicator on fuse holder.
	Protection of electrical installations with operating voltages.
	No arc and no emission.
	No mechanical parts in the fuse, corrosion resistance.
